CAREER SUMMARY

With over 6 years of professional experience since 2019, I've worked on-site and remotely (during the Covid-19 period). I'm experienced & passionate about Laravel, PHP, JavaScript and MySQL. I am responsible for developing & maintaining **Queue Management, Online Booking Systems, Enterprise, Customer Relationship Management, E-Commerce, Payment Gateways** and other **Management** and **Finance** based software. I have experience building both monolithic and microservices-based API applications. In addition, I have solid front-end development experience. I follow the SOLID principles and SDLC frameworks in software development. I am always eager to learn new tools and technologies. This helps me stay productive and enjoy solving problems and bugs.

TECHNICAL SKILLS

Languages: PHP, JavaScript

JavaScript: Node.js, Deno, jQuery, ES6, TypeScript, socket.io

Frameworks: Laravel, Express.js, Next.JS

Front-End: HTML, CSS, Bootstrap, React, Livewire

Cloud & Server: AWS, Nginx, Apache, VPS Server

Database, Storage, Caching: MySQL, MongoDB, Redis, PostgreSQL

Version Control: Git, GitHub, GitHub Action, Bitbucket, CI/CD

Code Testing Tools: PHPUnit, Pest (Laravel)

Collaboration Tools: Jira, Slack, Trello, ClickUP

CLI: Fluent in Unix Terminal

PROFESSIONAL EXPERIENCE

Senior Software Engineer | [RITI](#) | **Technology** | **November 2025 – Present**

Here, we develop custom software solutions tailored to clients' business requirements, including ERP, CRM, E-Commerce, and various enterprise applications across multiple

industries.

Full Stack Software Engineer | [Flyghuri Aviation](#) | Travel Agency | September 2025 – November 2025

- We are developing a **B2B airline ticket booking system** to operate for a travel agency that currently manages its business manually. The system is being built with **Next.js for the front-end** and **Python for the back end**, ensuring a modern, secure, and high-performance application.

Software Engineer | [Flight Expert](#) | Online Travel Agency | April 2022 – August 2025

- Participated in full-cycle software development and maintenance. Developed robust application for online Flight Ticket, Hotel & Visa booking system. (Laravel, PHP, JavaScript, jQuery, MySQL, Git/GitHub, CI/CD)
- API development and integration (RESTful APIs, API Integration)
- Developed a back-office system to manage reports, dashboards, blog, roles & permissions, and many other features.
- Built a system capable of handling real-time traffic from many users. And monitored and troubleshoot system bugs and issues.

Software Engineer | [IT Corner Limited](#) | Software Company | June 2019 – April 2022

- Developed systems using raw PHP and the Slim framework for efficient middleware management.
- Built applications for diverse domains including FOREX trading, CRM, e-commerce, and MLM platforms.
- Designed software architecture and led product development initiatives

Freelance Developer | May 2016 – December 2018

- Worked on WordPress theme development and customization, as well as HTML, CSS, JavaScript, PHP, and MySQL-based tasks.
- Gained hands-on experience with client projects through online freelance platforms like Freelancer and Upwork.
- Focused on academic studies during this period, which led to stepping down from my previous role at DCastalia.

Web Designer | [DCastalia](#) | Software Company | May 2015 – April 2016 •

Developed a couple of responsive, pixel-perfect websites

- Mainly responsible for front-end development.

EDUCATION

European University of Bangladesh

- BSc in Computer Science and Engineering
2015 to 2018- CGPA:-3.6

OTHER ACTIVITY

- **191+** reputation on [StackOverflow](#)
